

# Mitigating the Effects of La Niña in the Fisheries Sector

DEPARTMENT OF SCIENCE AND TECHNOLOGY (DOST)  
PHILIPPINE COUNCIL FOR AGRICULTURE, AQUATIC AND NATURAL  
RESOURCES RESEARCH AND DEVELOPMENT (PCAARRD)

# Contents

<b>Preface .....</b>	<b>iii</b>
<b>Acknowledgment .....</b>	<b>iv</b>
<b>Introduction .....</b>	<b>1</b>
<b>Flexicage .....</b>	<b>2</b>
Recommendations .....	3
Limitations .....	3
<b>Floating Cage Culture in Small Water Impoundments and Small Farm Reservoir .....</b>	<b>5</b>
Recommendations .....	6
Cage design/arrangement .....	6
Culture management .....	8
Limitations .....	8
<b>Culture of Tilapia (<i>Oreochromis niloticus</i>) in Ponds with Low Salinity .....</b>	<b>9</b>
Recommendations .....	10
Pond preparation .....	10
Stocking .....	10
Feeding management .....	10
Stock maintenance .....	10
Harvesting .....	10
<b>Longline Culture of Mussels .....</b>	<b>11</b>
<b>Microalgae Paste as Feed for Hatcheries .....</b>	<b>12</b>
<b>References .....</b>	<b>13</b>
<b>Figures</b>	
1 Illustration of the flexicage .....	2
2 Illustration of the floating fish cage .....	5
<b>Table</b>	
1 List of materials for the proposed floating fish cage .....	7
